

TASK 5 – ADVANCED DAX

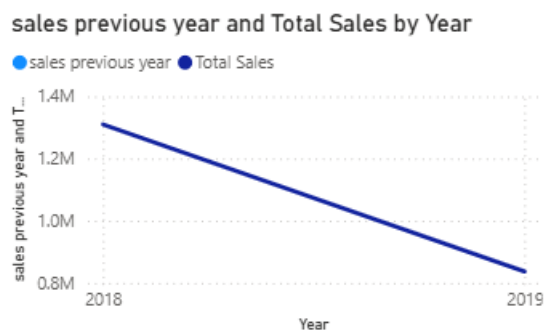

1. Create measures using time intelligence functions

Revenue_MTD = CALCULATE(SUM('Order Details'[Revenue per Order]),DATESMTD('List of Orders'[Order Date]))

Revenue_YTD = CALCULATE(SUM('Order Details'[Revenue per Order]),DATESYTD('List of Orders'[Order Date]))

2. Create measures for **comparisons across time periods.**

3. Create measures to calculate **growth or percentage change.**
